WHAT IS BITCOIN CASH?

- A person-to-person online payment system
- A decentralized currency that is not controlled by any 1 person
- A frictionless system made to avoid fees & exchange rates
- An optimized version of modern currency built for the world, not a single country

HOW CAN YOUR BUSINESS BENEFIT FROM BITCOIN CASH?

• No Transaction Fee

With credit card processing fees reaching all time highs, Bitcoin Cash can save your business thousands.

• No Chargebacks

With Bitcoin Cash chargebacks become a thing of the past, protecting your business against fraudulent payments.

• International Business Friendly

Think of Bitcoin Cash like your national currency on a global scale. This means your customers will no longer experience slow transactions or costly exchange fees.

• Large & Loyal Customer Base

Bitcoin Cash users are both passionate and adaptive. When your business decides to utilize Bitcoin Cash, Bitcoin Cash users will choose your business.

• Free Advertising

With a consistent growth in popularity and price, crypto currency continues to dominate the front page. Businesses using Bitcoin Cash are also commonly listed in directories and put on display.

WHY YOUR CUSTOMERS WILL LOVE BITCOIN CASH

• Lower Fees & Friction Free

Accepting Bitcoin Cash allows your business to easily and affordably accept international payments. Bitcoin Cash has no international exchange fee & allows for anyone to pay from anywhere.

• More Secure

Bitcoin Cash does not itself require or store any usable customer or financial information. A step towards Bitcoin Cash is a step towards security.

• Potential Discounts

Because Bitcoin Cash saves your business money by removing the risk of chargebacks and eliminating costly transaction fees, you can without risk, offer customer discounts.
